

JOIN A SIBLING REFERENCE GROUP!

An opportunity to shape a research project that will help the brothers and sisters of people who are receiving help for psychosis.

We are looking for volunteers to help oversee and shape our research project. We will be developing an online package to help siblings who have a brother or sister diagnosed with psychosis to understand and cope with their sibling's psychosis.

To join the Sibling Reference Group of this project, you will need to answer yes to the following questions:

- **Do you have a brother or sister who is receiving help from a local mental health service for psychosis?**
- **Are you aged between 16-35?**
- **Do you live in Greater London?**

In return for your help, we will offer a rewarding experience and payments for your time taken in meetings and consultations.

If you are interested in getting involved, please contact Jacqui Sin at Jacqueline.sin@kcl.ac.uk
